OHANA NAVY INSIGHTS **NEWS & STORIES**

IN TOUCH WITH YOUR COMMUNITY RESIDENT SERVICES OFFICE

Our President's Message

This Mother's Day will most certainly be unlike any before it. As the world, and our conditions, continue to change – one thing remains the same – the value we place on the

mothers whose sacrifices, commitment, and unconditional love enables families across the U.S. to thrive. On behalf of all of us at Hunt Military Communities, I'd like to give special recognition to those mothers who are deployed, on active duty, have children deployed, or are running military family households. Each of you are exceptional. For your families, you are the thread that ties it all together, and for the nation you are both the heart and the backbone. We are all grateful. Please join me in wishing every military mom out there a very special Mother's Day.

Best,

MAINTENANCE CORNER

AC FILTER REPLACEMENT

Lived in Hawaii long? Gone through one of our warmer summers? Most of us have and this means your air conditioning (AC) unit has been working in overdrive for months. With your AC unit working hard, your air filter is forced to handle more air than it normally does. This will lead to your filter wearing out in record time.

The first reason you should replace your air filter; regular maintenance will decrease how much dust is in the air. Many people will never notice there are more dirt and dust in the air. By installing a new air filter, you will be making it easier to breathe for everyone in your home and also reduce the possibility of exposing them to a significant health risk.

The second reason you should replace your air filter; dirty filters are excellent breeding grounds for bacteria and fungus. If your filter isn't changed regularly, mold and bacteria can get into areas of your air conditioning system and become a perfect breeding ground to grow.

As a reminder, we encourage our residents to change their air filter monthly to keep your system working at peak performance. If you have pets, we strongly encourage that you change your air filter at least twice a month.

Please call our Maintenance Request Line (808) 839-4357 while our offices are closed to have a filter delivered to your door by an OMC representative.

COVID-19 Update

Self Help & Work Order Operations

We were hoping to resume normal operations in May, but with the current conditions continuing to escalate we do not have a date in the foreseeable future of when we will resume normal operations.

As a reminder, the Self Help Store's physical location is closed to maintain social distancing to keep our families and maintenance team safe during this time. However, we are offering home deliveries if you call our Maintenance Request line at (808) 839-4357 or submit via RentCafé and place a work order for delivery. We will only be delivering the following items:

- AC air filters
- Refrigerator water filters
- Select specialty light bulbs

All interior routine work orders are still suspended, but we will continue to respond to urgent and emergency requests.

Technicians will ask our families to maintain a 6' physical distance or ask to have individuals step outside while conducting repairs to keep our families and team safe during this precarious time.

We will update you with any changes via email and we thank you for your understanding and patience.
