### Upcoming Fencing Project – Camp Stover

We'd like to inform residents that a fencing project is scheduled to begin soon in the Camp Stover housing area. This project is part of ongoing efforts to enhance safety, security, and overall community aesthetics. What to Expect:

- Temporary construction activity in designated areas.
- Possible detours or limited access near work zones.
- Work crews on-site during daytime hours.

We appreciate your patience and cooperation as we work to improve the neighborhood. As more details, including project timelines and affected areas, become available, we will share them.

If you have any questions or concerns, please feel free to contact the Community Office.

## MAINTENANCE TIPS

### Quick Leak Checks You Can Do at Home

Leaks can cause water damage, mold growth, and increased utility bills, but catching them early is simple! If you notice any signs of a leak, please submit a maintenance request immediately. Reporting leaks early helps prevent more significant issues and keeps our homes safe and comfortable.

Here are a few easy checks you can perform:

- **Under Sinks:** Open cabinets and look for puddles, damp wood, or a musty smell.
- **Toilets:** Listen for running water when not in use. Drop a few drops of food coloring in the tank—if it shows up in the bowl without flushing, there's a leak.
- **Showers & Tubs:** Check caulking and grout for cracks. Look for water pooling outside the tub or shower.
- **Laundry Area:** Check hoses for any bulges, cracks, or signs of moisture. Ensure all connections are tight and not leaking.
- **Walls & Ceilings:** Look for discoloration, bubbling paint, or soft spots—these may signal hidden leaks.
